

Louis Roy Byaruhanga

Kampala, Uganda / Munich, Germany | +256 783 92 70 50 | +49 1521 2687846 | byarus69@gmail.com | [LinkedIn](#)

Professional Summary

Geospatial analyst and land administration professional with experience applying Earth observation, geospatial analysis, and operational workflows to land-use monitoring, risk screening, and implementation support. Currently support EO-based monitoring of land-use change and deforestation risk for global supply-chain compliance workflows, including land-use interpretation, model improvement, false-positive review, and customer-facing case analysis. Prior experience in land acquisition, valuation, due diligence, grievance handling, and stakeholder coordination across large-scale public infrastructure projects provides strong grounding in delivery systems, field constraints, and evidence-based decision-making. Particularly interested in EO/ML-enabled monitoring, risk flagging, and digital delivery workflows for smallholder land and agriculture programs.

Core Competencies

Earth Observation (EO)	Geospatial Risk Assessment	Land-Use Monitoring
Remote Sensing Workflows	Geospatial QA/QC	Operational Monitoring
Risk analysis	Traceability & Evidence Generation	Stakeholder Engagement
Land Administration	Due Diligence	Delivery Workflow Design

Technical Skills

QGIS | ArcGIS Pro | Google Earth Engine | Python | PostgreSQL | Microsoft Excel | PowerPoint | Access | CAD | Google Earth | Spatial Analysis | GeoAI

Professional Experience

osapiens Holding GmbH - *Munich, Germany*

Geospatial Analyst | October 2024 - Present

- Support operational EO-based monitoring of land-use change and deforestation risk across global supply chains using satellite imagery and geospatial analysis.
- Provide land-use intelligence and spatial analysis to improve predictive model performance across diverse biomes and production contexts.
- Track land-cover change to support supply-chain compliance workflows under the European Union Deforestation Regulation (EUDR) using QGIS, ArcGIS Pro, Google Earth Engine, and related geospatial tools.
- Review model outputs to identify false positives, spatial inconsistencies, and other data quality issues affecting monitoring credibility and decision-usefulness.
- Engage with customers and internal teams to interpret flagged cases, incorporate feedback, and improve the operational usability of geospatial risk assessments.
- Contribute to repeatable evidence-generation workflows by linking geospatial analysis to case review, validation support, and compliance decision-making.

Uganda Electricity Transmission Company Limited (UETCL) - *Kampala, Uganda*

Valuation Surveyor | July 2021 - July 2023

- Supervised valuation and surveying consultants across transmission-line projects and reviewed methodologies, reports, and field outputs to ensure quality, compliance, and timely delivery of resettlement evidence.
- Coordinated land acquisition and compensation processes for large-scale infrastructure projects involving thousands of Project Affected Persons (PAPs), strengthening experience in operational delivery systems and implementation bottlenecks.

- Conducted due diligence and case-based valuation assessments to guide decisions on complex compensation matters and reduce delays in project implementation.
- Liaised with the Office of the Chief Government Valuer and other public institutions to secure approvals, resolve process bottlenecks, and maintain compliance with national requirements.
- Helped develop valuation guidelines and assessment forms to improve consistency, documentation, and quality control across consultant-delivered land acquisition work.
- Worked directly with affected communities and project teams to resolve disputes, manage grievances, and support implementation under real-world delivery constraints.

Uganda National Roads Authority (UNRA) - Kampala, Uganda

Land Acquisition Officer | March 2017 - June 2021

- Supported land acquisition and compensation workflows for major infrastructure projects, including verification of land and property claims, compensation processing, and documentation management.
- Participated in compilation of land and development values and prepared reports on compensation details for project-affected persons across critical road projects.
- Managed stakeholder communication and engagement processes across district and village levels, conducting more than 100 meetings over four years with communities and other actors.
- Verified and processed compensation payments for more than 5,000 project-affected persons in line with approved valuation reports and strip maps.
- Maintained accurate and retrievable records across multiple compensation databases, contributing to traceability and administrative readiness.
- Implemented grievance management procedures and successfully resolved more than 150 grievances related to land acquisition and compensation.
- Responded to internal and external audit findings and implemented agreed recommendations within required timelines.
- Developed a land-acquisition risk matrix and proposed mitigation measures, including route realignments to reduce project costs and implementation risks.

Selected Project Coordination Assignments in Land Acquisition – Uganda

Temporary Land Acquisition of Thidwer and Ondowng Quarry Site, Temporary Land Acquisition of Kansimo Crusher Site, Temporary Land Acquisition of Ukutulu and Ogigo Quarry Site, Temporary Land Acquisition of Kihaguzi A Quarry Site, Temporary Land Acquisition of Akimi B Quarry Site

Project Coordinator | 2019 - 2021

- Led sensitization, identification, verification, assessment, and disclosure processes for project-affected persons in temporary land acquisition assignments for quarry and road-construction projects.
- Coordinated compensation workflow implementation and supported timely approval of compensation reports by the Office of the Chief Government Valuer.
- Worked directly with affected communities and project teams to resolve issues early, contributing to smooth implementation and low grievance incidence.
- Strengthened practical experience in field verification, stakeholder coordination, documentation, and implementation under tight delivery timelines.

Education

Technical University of Munich - Munich, Germany

M.Sc. Land Management and Geospatial Sciences | Expected September 2026

- Focus areas: Geodesy, Land Administration and Management, Remote Sensing, Photogrammetry, Real Estate Economics, Cartography, Decision Support Systems
- Area of concentration: Geospatial engineering for land, water, and forestry applications and management
- Current grade: 1.5 (German grading scale)

Diponegoro University - Semarang, Indonesia

Master of Business Administration | August 2023

- Focus areas: Corporate Governance, Business and Corporate Strategy, Strategic Entrepreneurship, Logistics and Distribution Management
- Award: First Class (CGPA 3.77/4.00)

Uganda Management Institute - Kampala, Uganda

Postgraduate Diploma in Project Planning and Management | August 2020

- Focus areas: Sustainable project cost, quality, procurement, risk, design, monitoring, implementation, and management strategies
- Award: First Class, Valedictorian (CGPA 4.78/5.00)

Makerere University - Kampala, Uganda

B.Sc. Land Economics | February 2017

- Focus areas: Land Law, Facilities and Building Management, Real Estate Valuation, Property Economics, GIS, Land Policy, Investment Analysis
- Award: Second Class Upper with Honors, Dean's List (CGPA 4.34/5.00)

Professional Development

- Python Foundation for Spatial Analysis, Spatial Thoughts - December 2025
- Nature-Based Solutions for Cities, Politecnico di Milano - July 2025
- Social Impact Assessment (E-Learning Programme), University of Strathclyde and The Community Insights Group - December 2022
- Land Pooling/Readjustment: An Alternative to Compulsory Land Acquisition, World Bank Open Learning Campus - June 2022
- Land Governance for Development, Universiteit Utrecht - July 2021
- Introduction to Land Management, Technical University of Munich - July 2020
- Common Methods of Valuation, University College of Estate Management - June 2020
- Mediation as a Form of Alternative Dispute Resolution, Royal Institution of Chartered Surveyors - November 2019
- Certificate in Management of Land Acquisition, Resettlement and Rehabilitation, Institute of Survey and Land Management - July 2018

Leadership Experience

- Captain, Mafiaz Football Club, The SMACK League (TSL) - Led the team to top-three league finishes in three consecutive seasons and secured more than USD 10,000 in sponsorship.
- Head of Investment, LHC Investment Club - Coordinated acquisition of a strategic parcel of land in a growing residential estate, ensuring due diligence and negotiation.

Publications

- Effect of Corporate Directorship on Firm Performance: Cases of Companies Listed on the Uganda Securities Exchange (USE), International Journal of Innovative Science and Research Technology, Vol. 8, Issue 6, June 2023.
- Assessing the Impact of Urban Sprawl on Land Use Patterns: A Case Study of Seeta Parish, Goma Sub County, Mukono District, undergraduate dissertation, 2016.

Additional Information

- Interests: Travelling, Football, Reading, Mentoring, Analytics, Research, Hiking, Golf
- Referees: Available upon request
